

# Our Products Stack Up

## **REM Speech+** Binaural Live Speech Mapping Real Ear Measurement System

The AVANT™ REM+ is a global leader in REAL EAR Measurement (REM) and Live Speech Mapping (LSM). Its unique design allows verification to be conducted virtually anywhere, due to its small footprint and USB power connection to a computer.

## **AVANT A2D+** 2-Channel Diagnostic Audiometer

The AVANT™ A2D+ audiometer is an evolution in digital, computerized measurement technology specifically designed to save time and office space. The A2D+ involves the patient and third party in understanding the scope of hearing loss and the potential of amplification solutions.
