OTICON | More

More potential than ever

In a wide range of innovative styles

The Oticon More family continues to expand with two new discreet miniBTE styles. The new miniBTEs offer the superior sound quality of Oticon More and are perfect for patients who need a small BTE, with the option of rechargeable and non-rechargeable styles. Rechargeable Oticon More hearing aids can be charged with our standard desktop charger, or with the optional SmartCharger. All Oticon More hearing aids contain a telecoil and Bluetooth® Low Energy technology to connect to iPhone®, iPad®, and select Android™ devices.*

With a broad choice of styles to choose from, you can now offer Oticon More's life-changing technology to even more patients.

Color options

Earpieces

The miniFit earpieces include standard domes, Grip Tips, MicroMold, MicroShell and LiteTip. Custom earpieces are available in acrylic, soft silicone or VarioTherm® material.

* Android devices need to support ASHA to allow direct streaming to Oticon More. Please visit oticon.com/support/compatibility for more information.

** Please note, miniBTE R uses a different SmartCharger and desktop charger than miniRITE R.

Improve speech understanding

MoreSound Intelligence™

Access to all relevant sounds in a clear, complete and balanced sound scene

MoreSound Amplifier™

Rapid high-resolution amplification that follows changes in the sound scene
