Custom RITE Earmolds

Custom Mold Styles

LiteTip	MicroMold	Power Receiver Mold	MicroShell	Skeleton	Half Skeleton	Semi Skeleton
						
(Hollow)	(Solid)	Opn, Opn S and Opn Play ONLY	Opn, Opn S and Opn Play ONLY			(Available in hard material only)

Retention Locks

All mold styles except MicroShell, are offered with canal locks and skeleton locks for better retention. Helix locks, Half Skeleton, and Semi Skeleton styles are also available upon request. (Retention Lock options vary by style and material selected.)

Canal Lock	Helix Lock
	 (Available in hard material only)

*VarioTherm Material

VarioTherm is a body temperature-reactive plastic for soft flexible earmolds. The unique properties of this material allow the mold to remain hard at room temperature for ease of insertion and then soften (become more flexible) at body temperature for increased comfort and optimum sealing.

Please note: This material requires gentle warming/softening of the mold with a hair dryer before insertion or removal of the receiver.

*miniFit 60 and 85 speakers only

Wax Protection System

Custom molds (except LiteTips) use the ProWax system. All miniFit receivers and MicroShells use the ProWax miniFit wax system.
