

Communication Strategies

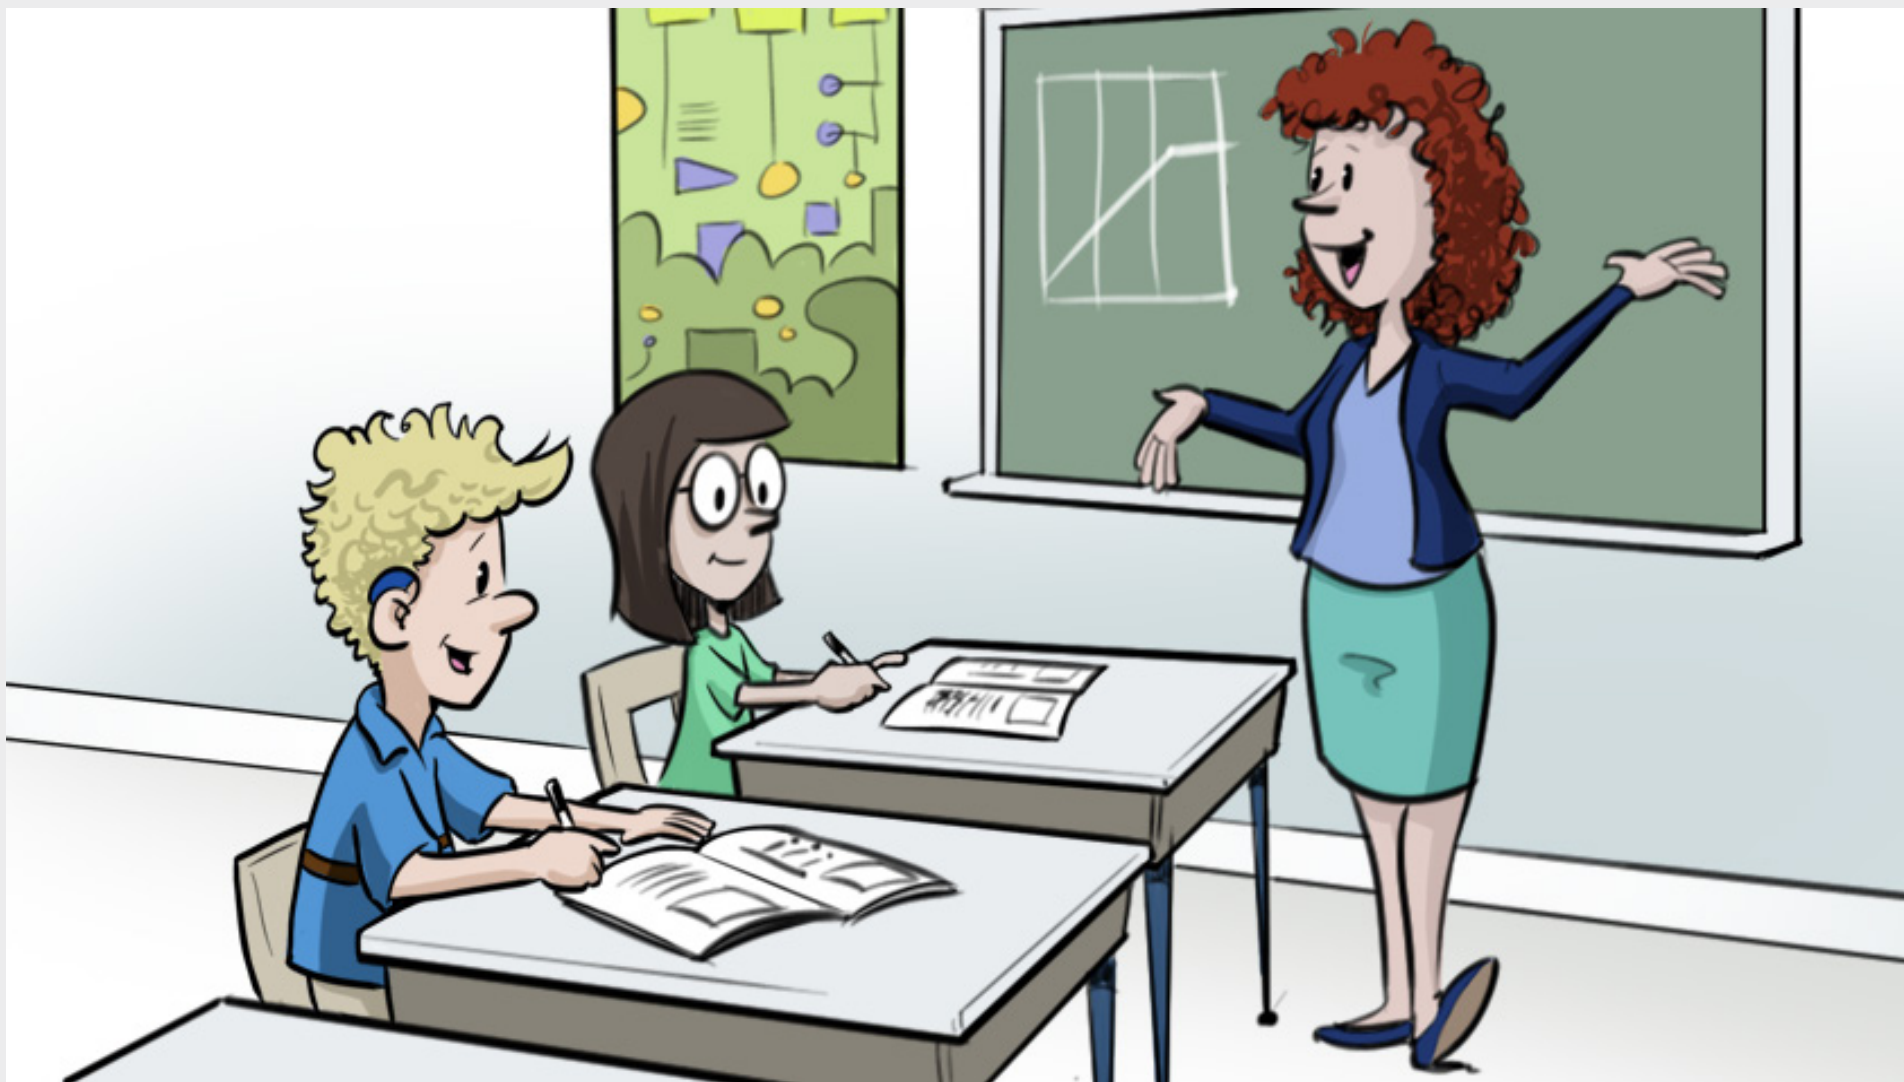

Move to a quiet place to talk.

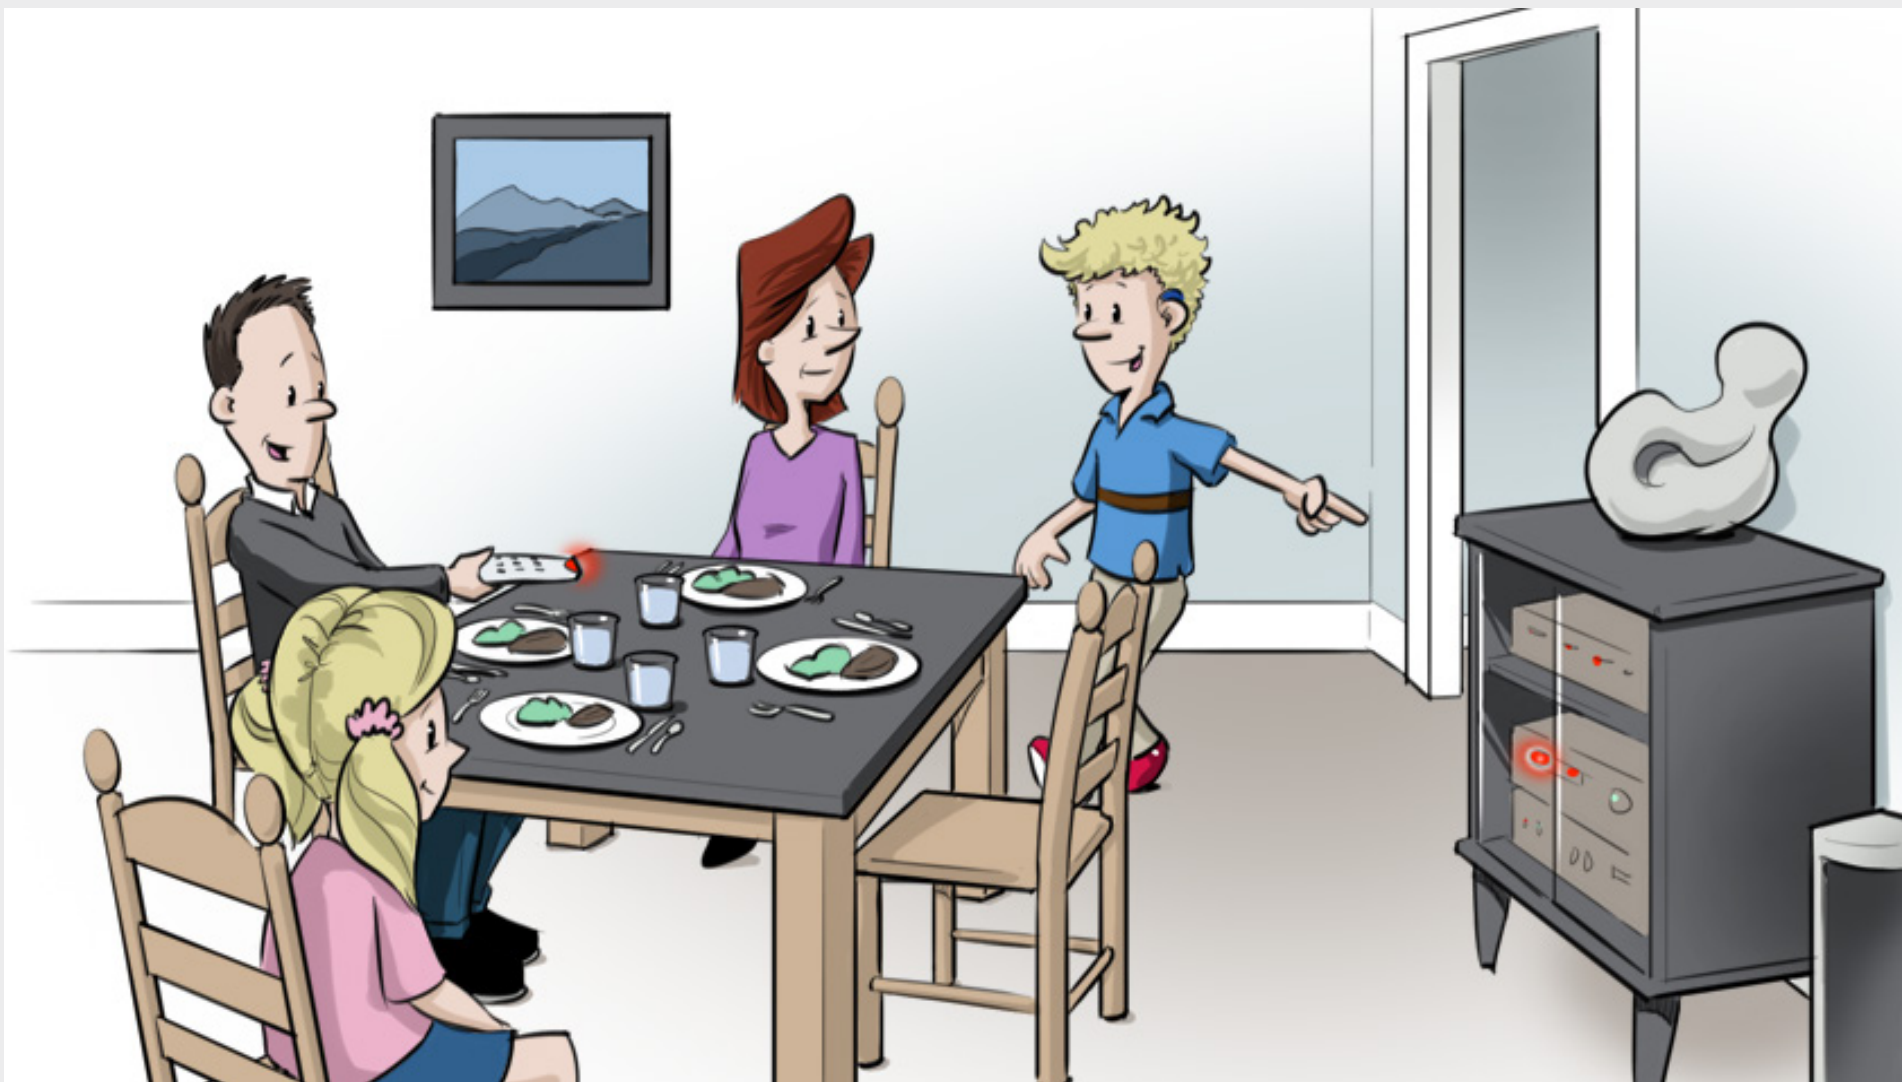

Use your hearing aids all day, every day.

Be sure there's light on the face of the person you're talking to.

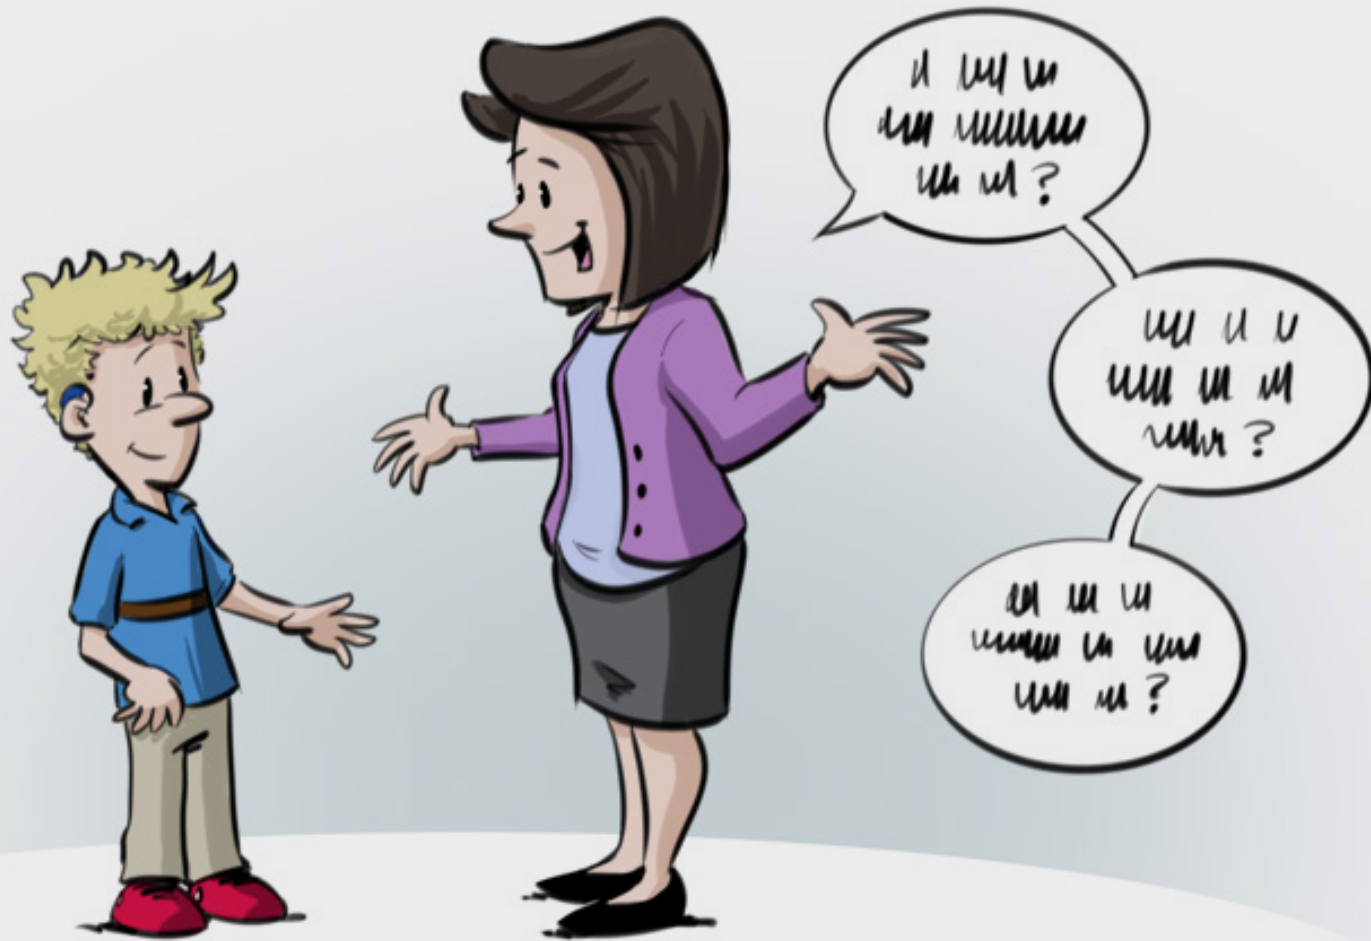

Move close to the teacher when you're in the classroom.

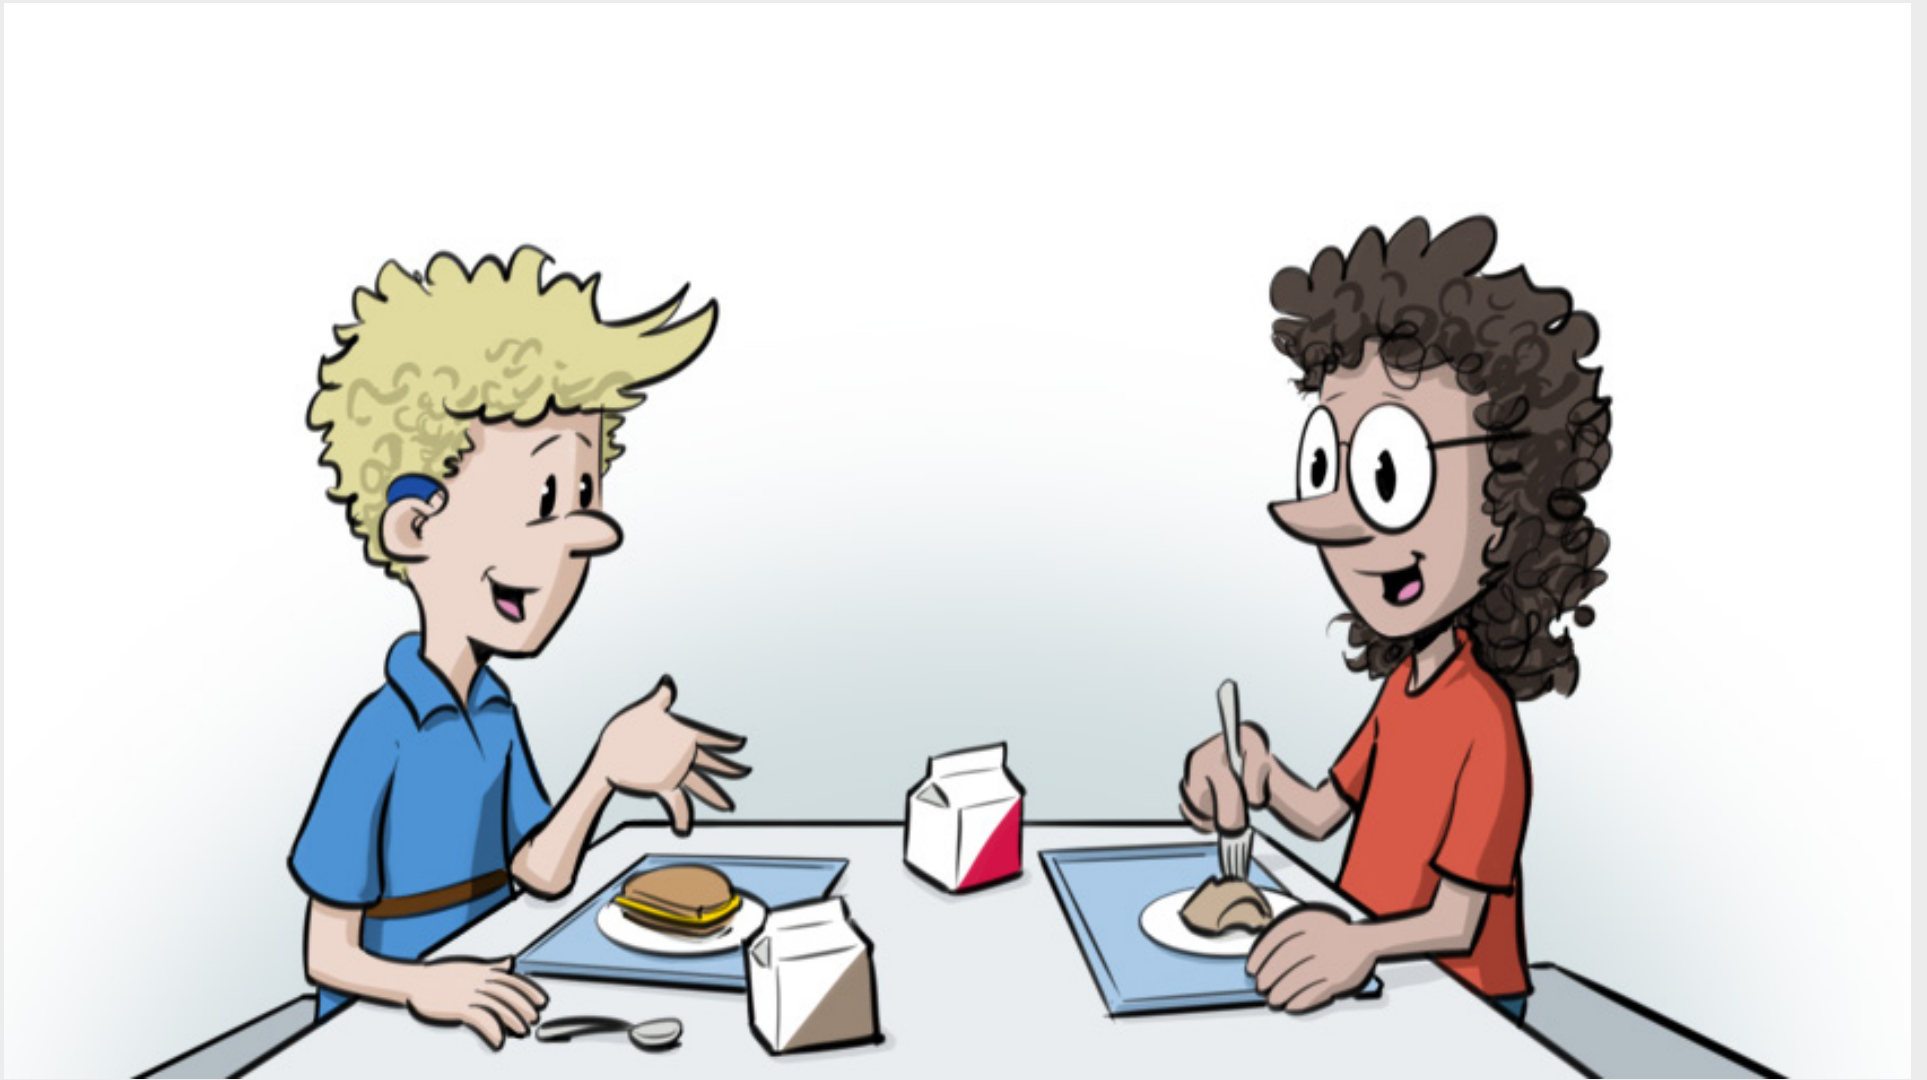

Ask others to turn off distracting noise.

Ask others to speak slowly.

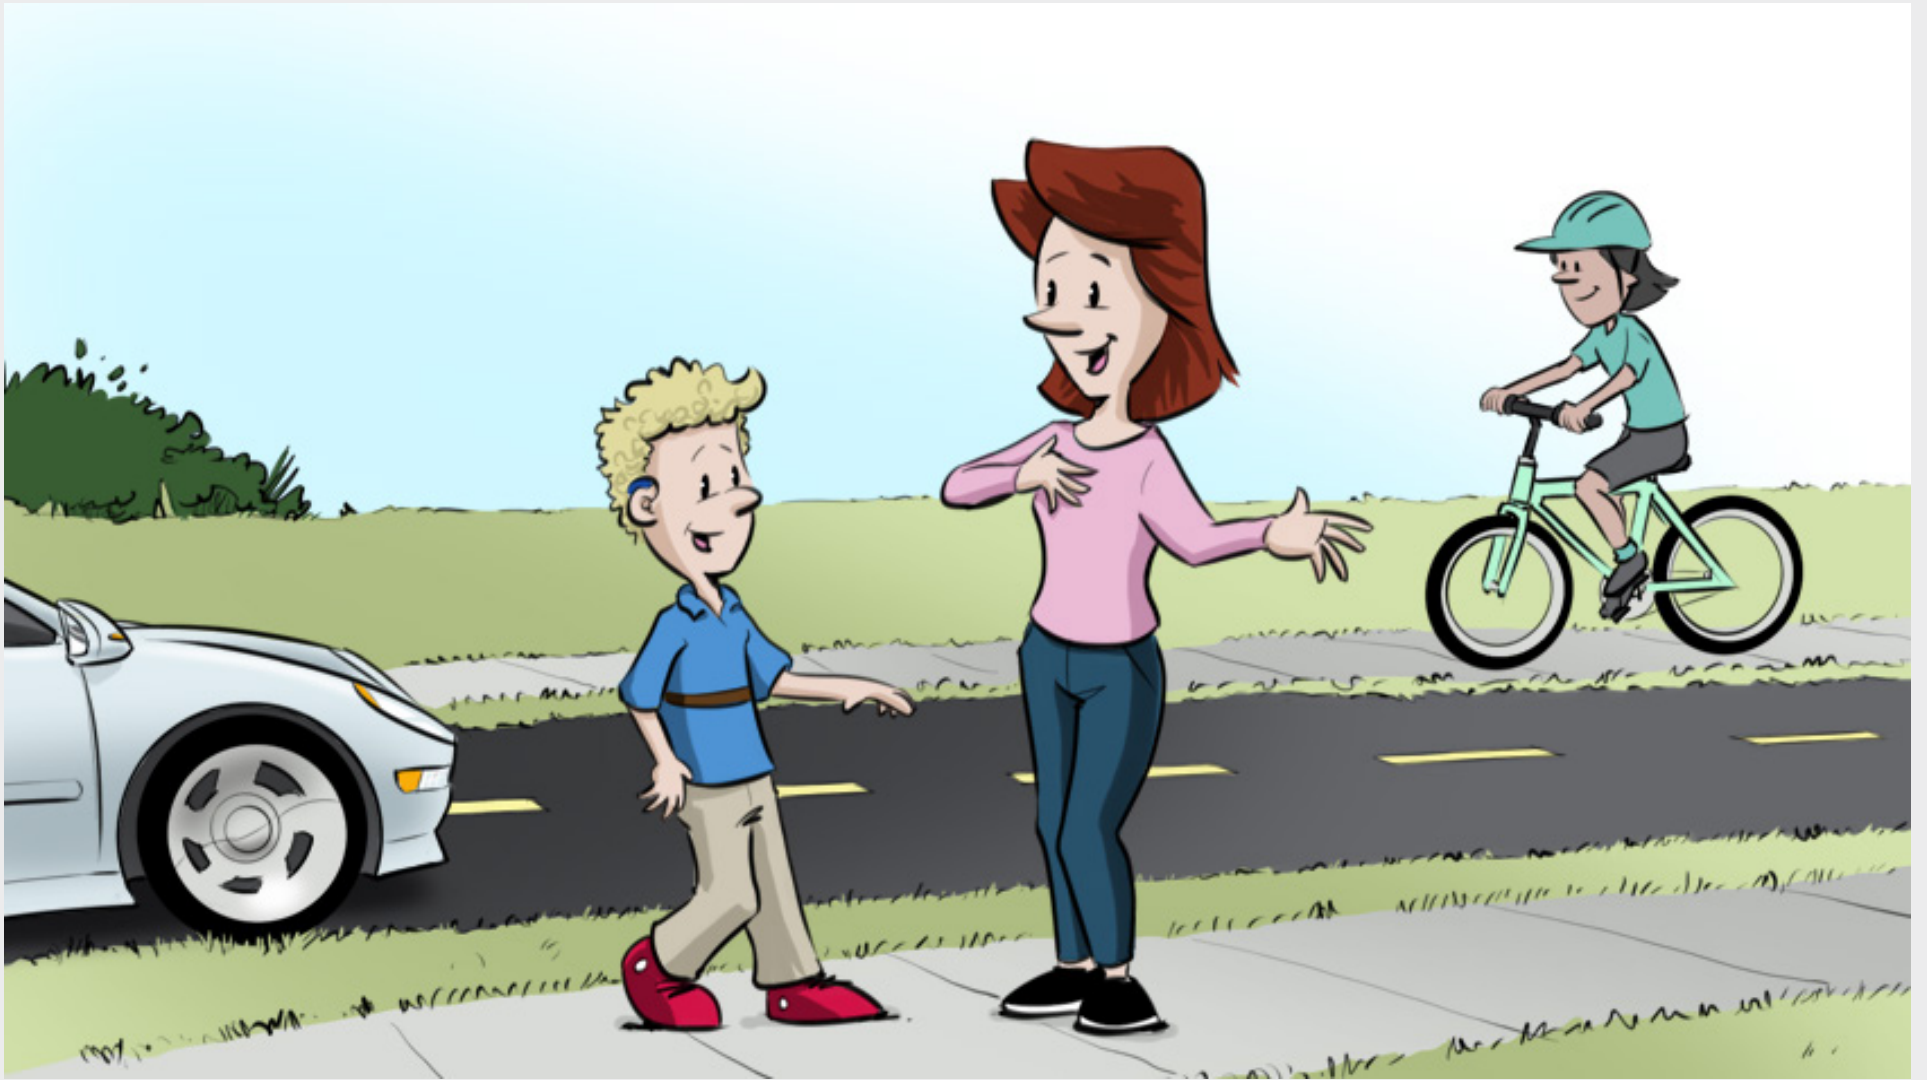

If you don't understand what's being said, ask others to rephrase or explain what they are saying more clearly.

Ask others to look directly at you while they are speaking.

Ask others to speak in a normal tone of voice.

Ask others to use normal gestures.

Ask others to speak one at a time.
