

Your next hearing solution
– in a compact and reliable design

Where performance and price
come together in perfect scale
– the Oticon miniBTE

The amazingly small miniBTE shell houses some of the most powerful sound processing technologies available.

Invisible systems that make it easier to get involved in conversations – even when the going gets tough.

The introduction of the miniBTE style means our best-in-class technology in a much smaller, and very stylish package.

For your pleasure, it is designed to optimise discreetness and wearing comfort:

- ▶ Compact organic shape follows the ear lobe contours and hides nicely behind the ear
- ▶ Easy operation with user-friendly push button

Enjoy the essentials

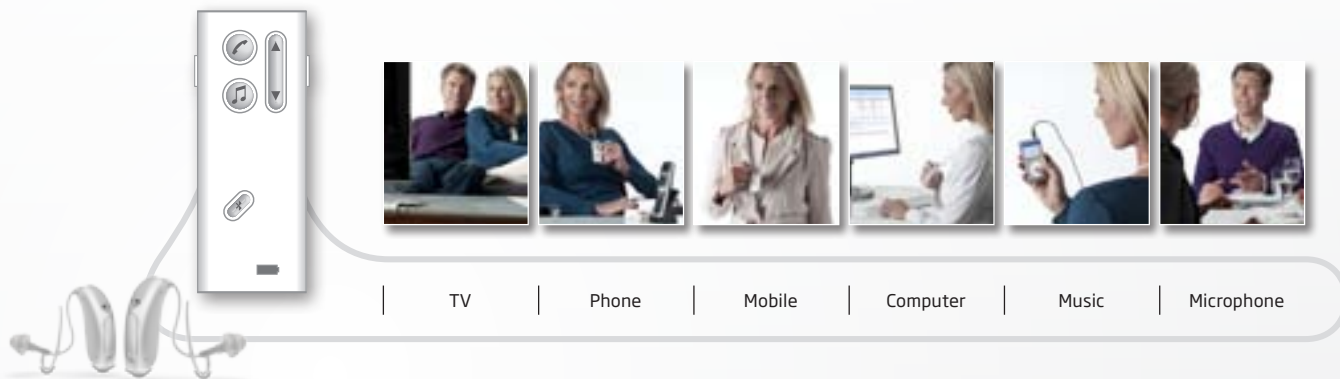

Living means getting the essence of every moment of life. Precious moments with your family. Joyful moments with your close friends. Entertaining moments with the music and movies you enjoy.

Enjoy life's essentials face to face with family and friends or give them a call when they are far away. Staying in touch is an essential ingredient to a rich and meaningful life.

Oticon Ino is designed to let you enjoy the essentials of life.

**Keeps you connected
in practically all situations**

Connecting to modern communication devices is critical if you want to get the most out of life's precious moments.

With a small and elegant companion device - Oticon Streamer - and Oticon ConnectLine you can get sound from your home or mobile phone or other devices like your TV, PC or music player directly into both of your ears.

The connectivity options are here for you today - pick what you need now and add on as the needs arise.

Behind-the-ear instruments are available in seven skin and hair colour tones.
